No representations or warranties, either express or implied, or merchantability, fitness for a particular purpose or any other nature are made hereunder with respect to information or the product to which the information refers.

FAS Super Tempera Metallic Paint is richly formulated, has a thick and creamy consistency that offers a rich strong and long lasting colour. Made from high quality water-soluble and non-toxic pigments in 8 exciting metallic colours. We do not recommend the mixing of these metallic colours as this would destroy their brilliance.

This exciting metallic finish is great for special effects, creative artwork and decorating on almost any surface.

**Use For:** Decorative and highlight work, non-permanent posters, ticket writing, finger painting, Christmas decorations, general art and craft work. Ideal for use in clubs and school classrooms. Recommended for 3 years +.

**CLEANING:** Soak garment immediately in warm water with detergent while paint is still wet. Leave to soak overnight, then machine wash with detergent in warm water. A slight residual pigment stain may remain on some fabrics. We do not recommend the application of stain removers as this may help set the stain and make removal more difficult. Metallic colours do not have the same wash off capability as standard Super Tempera colours.

**STARTER SET:** 6 x 30ml Jars  
Silver, Rich Gold, Copper, Blue, Green and Violet.

**SINGLE COLOURS:** 75ml, 250ml 500ml and 2 Litre. (pump available separately for 2Ltr)

### Metallic Paint Colour Chart

All colours have a rich metallic finish  
Please note that this tint chart is produced within the limitations of printing and is intended as a guide only.
