

Super Tempera wash-off poster paint

- An affordable, high quality, pre-mixed paint
- Non-toxic bright colours that will not fade
- 38 bright intermixable colours.
- No shaking or stirring - does not separate
- Long shelf life
- Dries to an opaque, matte finish
- Freeze/thaw stable
- Overpaint without lifting
- Washes up easily with soap and water

FAS Super Tempera™ is a premium quality non-toxic poster paint that combines vibrant colour with easy washability. This high performing poster paint offers a huge selection of strong bright colours, a smooth creamy flow with excellent mixing properties allowing for more vibrant secondary colours. It provides great coverage, dries to a flat matte opaque colour that will stay true when dry.

FAS Super Tempera™ cleans easily from skin and most children's clothing with just soap and water. It is also freeze-thaw stable, and the non-separating formula requires no shaking or stirring, giving it an excellent shelf life.

This paint brings exceptional value and versatility to the classroom. Ideally suited for art education where children can express themselves freely and brightly, with colours that include fluorescent glow-colours, skin-tone people paint and metallic colours.

USE FOR: See overleaf for information on our colourful 'Paint' project book

Great for use in clubs and school classrooms. Non-permanent posters, ticket writing, finger painting and general art and craft work. A multi-purpose poster paint with endless applications. A very popular choice for the classroom. Recommended for 3 years +.

APPLICATION:

Readymixed tempera paint designed for instant use in the classroom. Can be applied straight from the bottle. As it will not separate or spoil, there's no shaking or stirring required. Use a brush, sponge or fingers as required. Dilute with water if necessary.

CLEANING:

Formulated to easily wash from skin and most children's clothing. Soak garment immediately in warm water with detergent while paint is still wet. Leave to soak overnight, then machine wash with detergent in warm water. A slight residual pigment stain may remain on some fabrics. We do not recommend the application of stain removers as this may help set the stain and make removal more difficult.

Single Colours: 250ml,* 500ml,* 2 Litre & 5 Litre
*(pump available separately for 2Ltr) * = Squeeze Bottles*
